

Tank internal dimensions

Volume: _____ Liter
 Tank-Ø D: _____ mm
 Length L: _____ mm
 Dome-Ø: _____ mm
 A - B: _____ mm
 B - C: _____ mm
 Reinforcement rings: _____ pieces
 - Dimensions: _____ x _____ x _____ mm
 Tankliner Type: OE-N 33
 OE-11 A

Important note

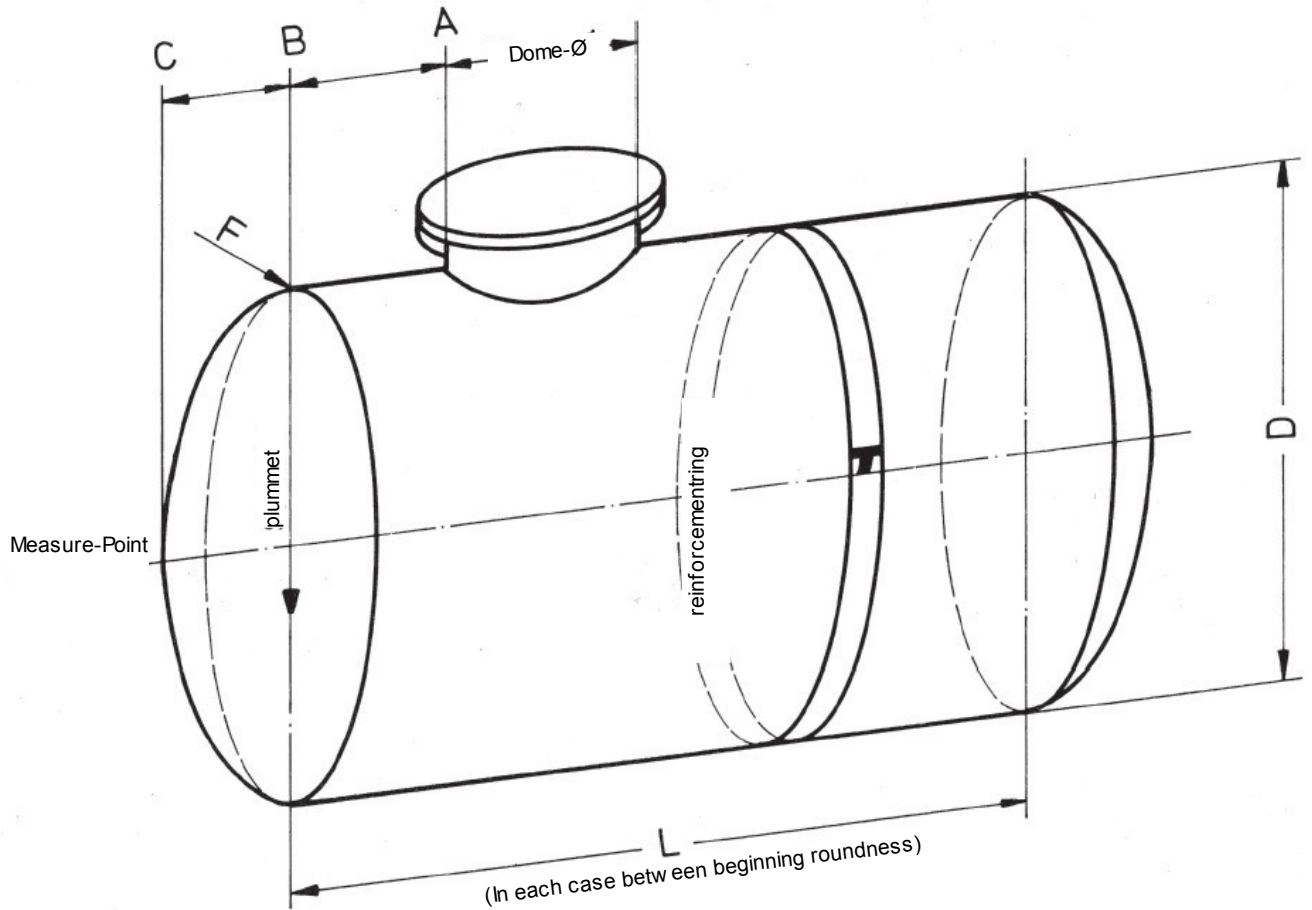

The measures A-B, B-C and L are always to be taken from the beginning of the roundness on the tankground, not from the welding seam!

You receive the measure B-C by plumbing down in point F and measuring the distance between plumb cord and the middle of the tankground.
